

Monitoring STANAG Implementation – Best Practices

2018 International Standardization Workshop

October 30 – November 1, 2018

Tysons, Virginia - USA

Lt. Cdr Nikolaos Myriounis GRC (N)

NATO Standardization Manager

Hellenic National Defence General Staff (HNDGS)

Defence Planning and Programming Directorate (DPPD)

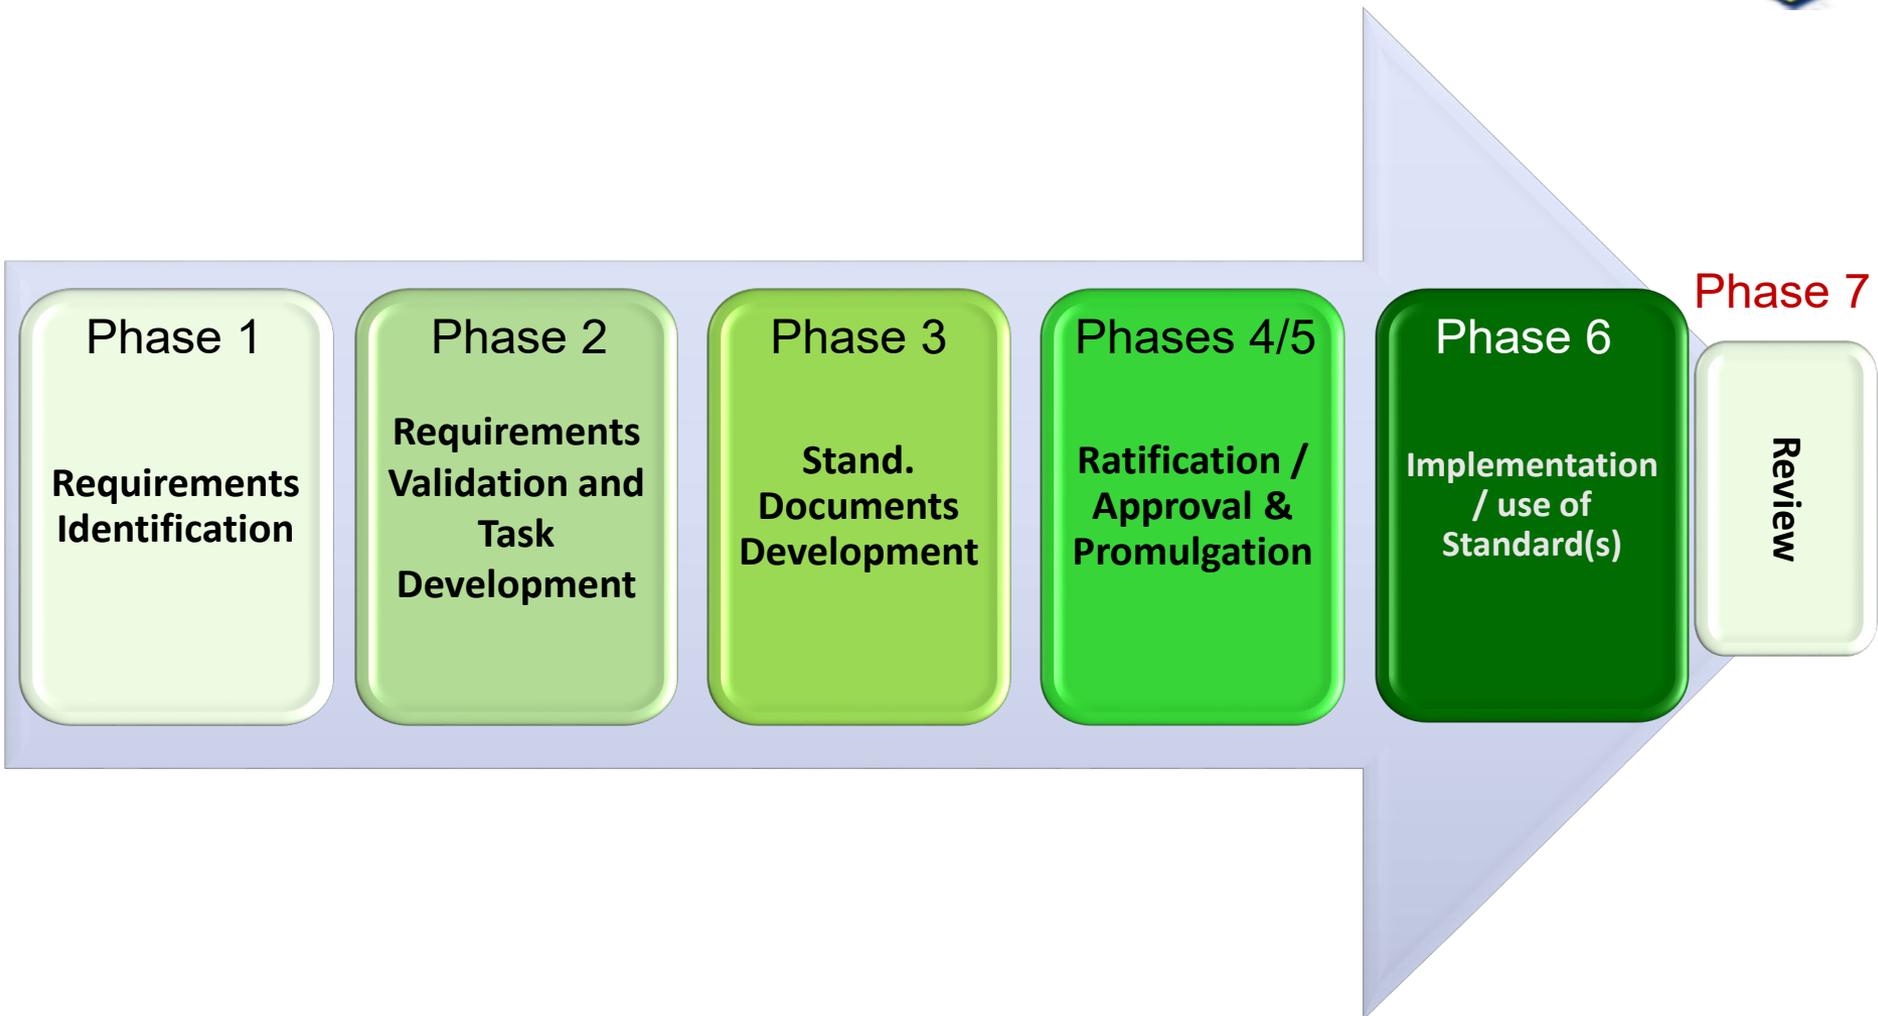

n.miriounis@hndgs.mil.gr

AGENDA

- NATO Standardization Documents Development Process – Phases 4/5 and 6
- Ratification and Implementation of NATO Standards
- Implementation Analysis - Best Practices
- Panel Discussion

Roles and Responsibilities

Make standardization proposals

Provide subject matter experts (SMEs) to develop NATO standardization documents

**Allies
(NATO Nations)**

Ratify STANAGs within the agreed timelines

Implement standards in accordance with their ratification responses and agreed capability targets, in the most expeditious manner in response to Alliance needs.

The training of national forces to NATO standards to meet the full range of Alliance missions remains a priority for, and responsibility of, individual Allies

Roles and Responsibilities

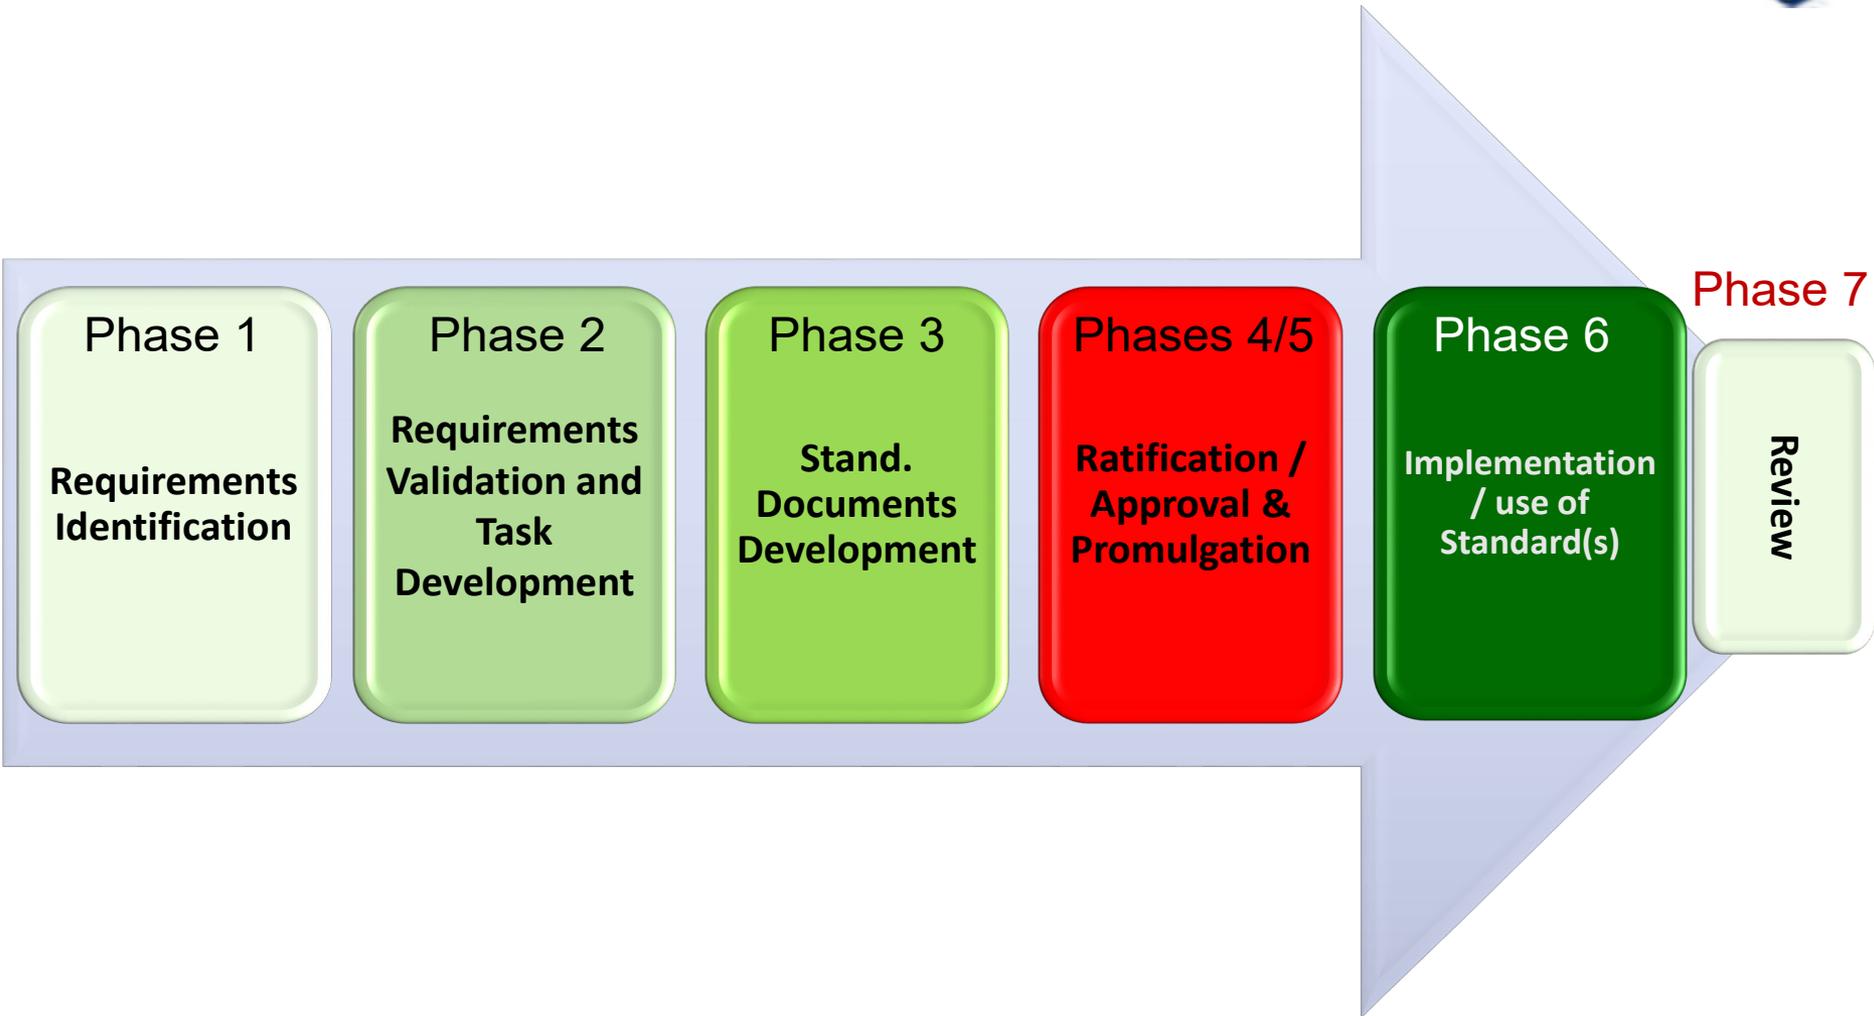

Encouraged to send SMEs to those activities and may make standardization proposals

Invited and encouraged to adopt and implement standards when appropriate

NATO Partners

Fully transparent adoption of NATO standards, and training of national forces to those standards, is of particular importance for capabilities to be integrated in NATO training and exercise events, NATO partnership programmes and NATO led-operations

STANAGs RATIFICATION

TA/DTA *Recommends promulgation*

TA/DTA *Initiates ratification process*

SMEs Project Team

Implementation Impact Analysis and Assessment – Recommendations on the Ratification Response

Reviews the national position for consistency with AAP-03 (K) provisions

GRC Rep

Decision on Final Ratification Response and Implementation Forecast

- ✓ **ratifying and implementing**
will implement fully
provide date/timescale
- ✓ **ratifying and implementing - with reservations;**
will implement but has concerns/impediments in some areas
provide date/timescale
- ✓ **ratifying, future implementation;**
will implement fully
unable to provide date/timescale
- ✓ **ratifying, future implementation - with reservations;**
will implement but has concerns/impediments in some areas
unable to provide date/timescale
- ✓ **not ratifying**
object to promulgation / inability to implement
- ✓ **not participating**
do not have the capability / not interested

1. COMMENTS:

«A comment is an amplifying remark, other than a reservation, expressed by a Nation as part of its ratification response»

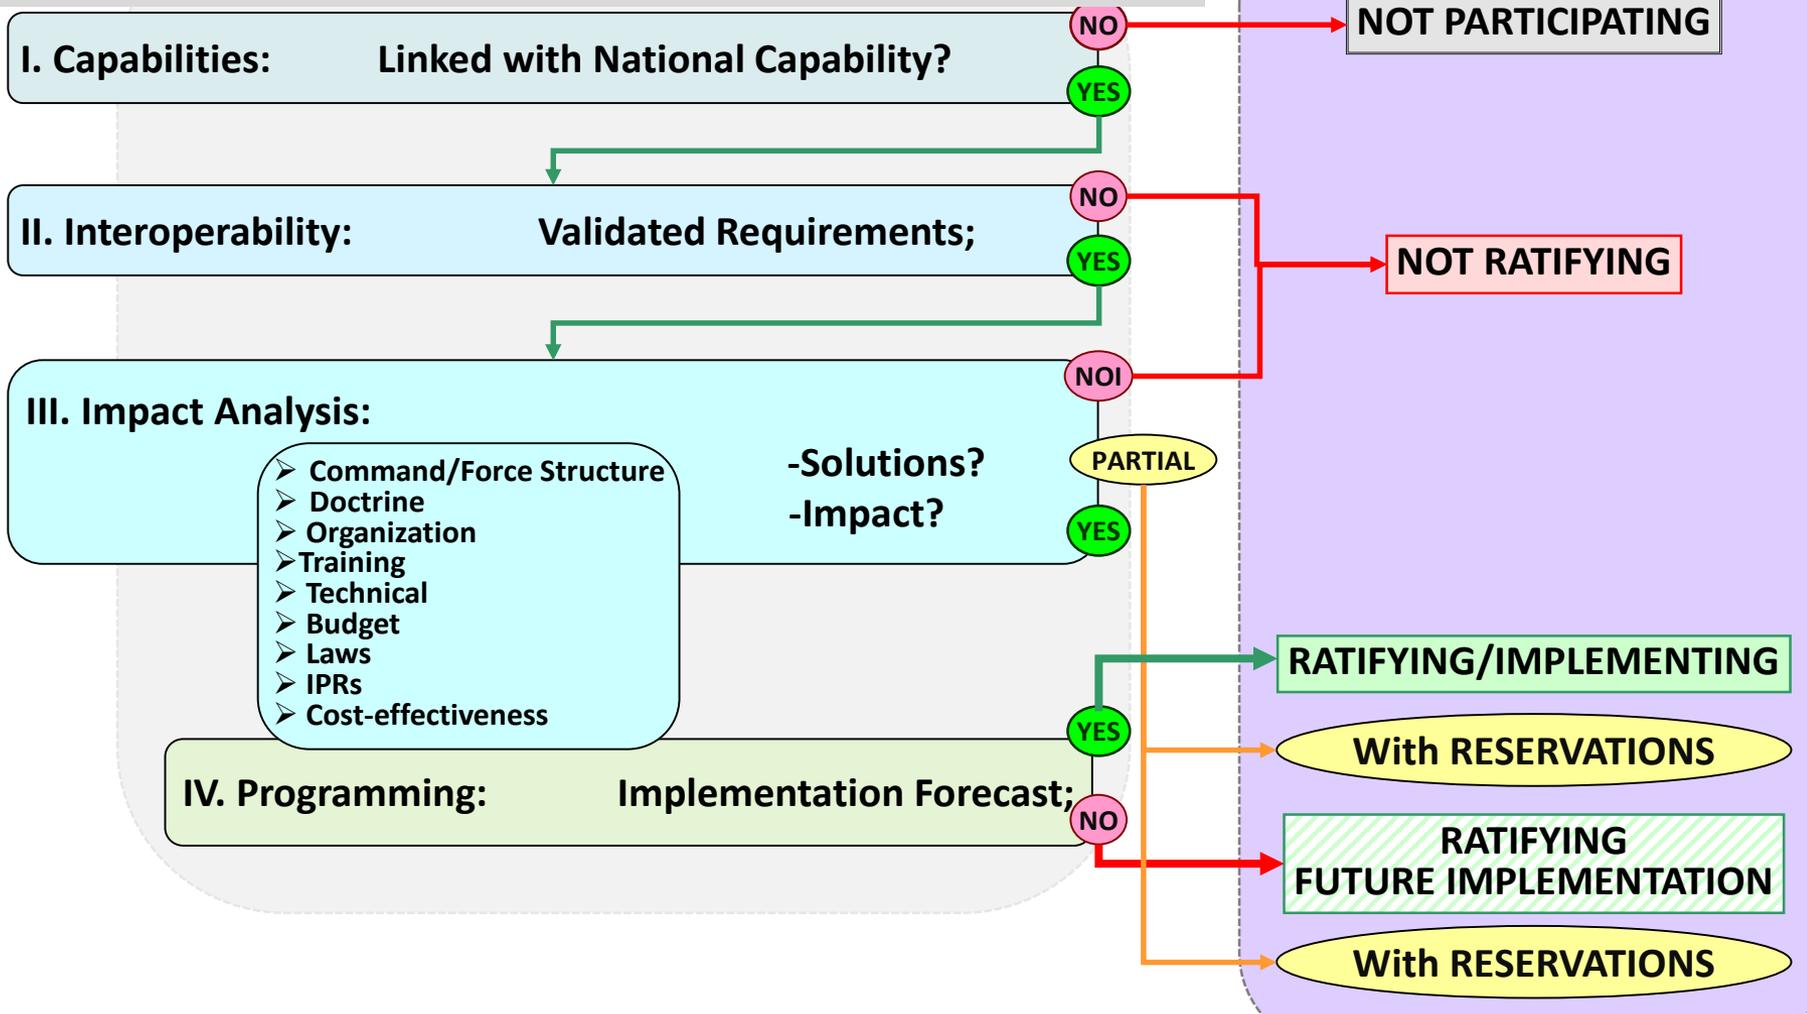

«Comments **should not express a limitation** or restriction on the Nation's **implementation**»

2. RESERVATIONS:

«A reservation is a formal statement by which a Member Nation describes the part of the document or documents covered by a STANAG that it **will not implement** or **will not implement in full**»

! Each STANAG shall contain a section on implementation of the agreement.

Guidance should be sufficiently **detailed** and shall set a list of specific actions, including qualification if necessary, that Allies should take **to complete implementation**.

OPERATIONAL STANDARDS - guidance may address the need to:

- include standard(s) covered in national concepts and doctrine
- change/develop national education and training courses
- use standard(s) covered in national exercises and evaluation programmes.

MATERIEL STANDARDS - guidance may address the need to:

- change/develop national technical specifications or defence standards
- Incorporated into national procurement programmes
- develop of interface solutions
- participate in tests and trials

Assess Impact of Operational Standards to Materiel ones and vice versa

Panel Discussion

Interoperability Dimensions

COMISAF 2009

Forces in Afghanistan cannot communicate effectively and share information. These gaps increase risk to life, resources and efficiency.

By far the hardest part was creating the appropriate culture.

Military Systems

Interoperability can cost as much as 40% of the acquisition and maintenance budget
