

**Category:** Class II Equipment

**Item Name:** Soldier Crew Tent (SCT)

**NSN:**

- Type I (Green/Tan) 8340-01-359-0084
- Type II (Green/White) 8340-01-359-1481

**LIN:** T51043

**Part Number (Model Number):** 5-4-7581-1

**Description:** The SCT is a lightweight, durable, single frame, single hub tent. The tent body is suspended from the frame in a canopy style. An over-cover lies on top of the frame to provide an air gap for added insulation. Two reversible over-covers are available in green/tan or green/white configurations. A cold weather cotton liner is also provided. Houses up to 5 Soldiers comfortably with 120 square feet floor space. Erect/strike is accomplished in less than 5 minutes. A storage/transport cover is included as well as a field repair kit.

**Version:** N/A

**Dimension:** 11'x11'x53"

**Weight:** 75 lbs

**Capability:** Provides environmental protection for billeting of combat vehicle crews. The SCTs popularity is promoting a change in the authorization of units in need of billeting for small unit elements. A 4" stovepipe opening is included for use with standard Space Heater Arctic (SHA).

**Electrical Power:** None

**Transportability:** All traditional modes

**Used By (Service):** Army

**Other Characteristics:** CTA Item, Available through supply system, DLA managed

**Primary Inventory Control Authority (PICA):** NIMSC 5

**Supportability:** Standard Army Retail Supply System and Standard Army Maintenance System, TM 10-8340-227-13&P
