MEMORANDUM FOR DOD STANDARDIZATION MANAGEMENT ACTIVITIES

SUBJECT: Policy Memo 95-11, Performance MS and AN Sheets

This policy memorandum responds to inquiries on how to designate performance MS and AN sheets. In general, MS and AN sheets tend to be detail design and are counted as detail specifications. No change needs to be made, if a MS or AN sheet is detail design, although DoD policy encourages their conversion to specification sheets if possible (see 5.12.16 of MIL-STD-961D). For a MS or AN sheet to be designated as performance, it must be renumbered as a specification sheet that supports an existing general performance specification. The old MS or AN sheet identifier cannot be retained for performance specifications.

If you have any questions on this policy, please contact your Departmental Standardization Office (DepSO).
